CLEAR AS GLASS

Gorgeous skin is the unbeatable fashion statement

Attractive people command attention. Heads turn when a beautiful person enters the room. The public instantly listens when a looker has something to say whether in business or simple social interactions physical beauty is always an attention-grabber. That's why in order to get ahead, it is important to always look good.

People spend a lot of time and resources choosing the right clothes in order to look their best. No doubt flashy clothes and accessories are show stoppers, but underneath all the stylish pieces, jewelry, and make up, real beauty comes alive with natural glowing skin.

Accessories like earrings and necklaces stand out when skin is smooth and flawless. For those who like wearing make-up, cheeks and eye colors come alive when applied on clear velvety skin.

We live in an age where days are filled with selfies and social media posts. We barely have time to catch our breath, and yet we need to look good because photos are posted on social media several times a day.

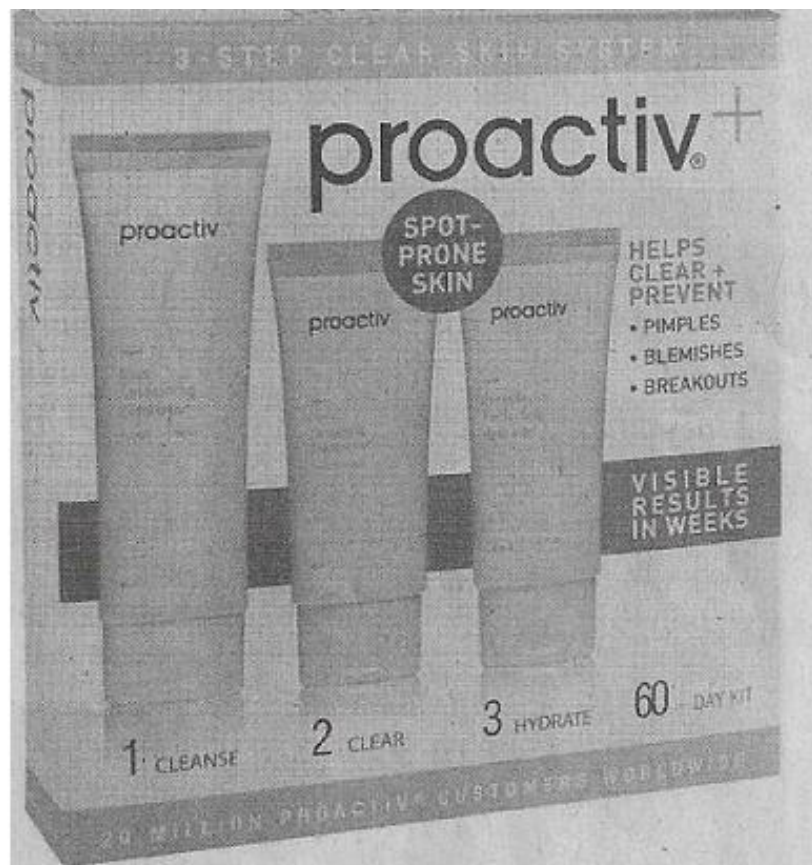

Gorgeous skin doesn't happen overnight. We need to eat right, drink lots of fluids, and get enough sleep. We also need to follow an advanced skin care routine to address problem areas like acne, wrinkles and blemishes.

Proactiv+ 3step Skin System uses the Smart Target technology to

deliver acne-fighting formulation directly into the infected pores.

The three-step system starts with a facial cleanse using a Smoothing Exfoliator. The process removes excess dirt oil and other impurities as it prepares the skin for advanced, acne-clearing treatment. The exfoliator is applied on damp skin, followed by a two-minute massage before it's completely rinsed with warm water.

The second step directly addresses acne and other problem areas. The Pore Targeting Treatment stops the acne at the source by delivering blemish-fighting solution directly into the pore. Apply

two pumps on skin, and gently smoothen all over the face. Leave on face until full absorption.

The final process of the Proactiv+ 3step Skin System repairs the skin with the Complexion Perfect Hydrator. The moisturizer will heal redness, erase acne marks, and brighten skin. Simply apply on face until fully absorbed. Re-apply during the day as needed. Don't forget to put sunscreen if you need to go outdoors.

The Proactiv+ Solution is available at select Watsons and SM Department stores. Proactiv+ 30 day kit is sold at P3,250 and includes the Skin Smoothing Exfoliator 60 ml, Pore Targeting Treatment 60ml, and the Complexion Perfecting Hydrator 30 ml while the Proactiv+ 60 day kit is sold at P4,680 and includes Skin Smoothing Exfoliator 120 ml, Pore Targeting Treatment 120ml, and Complexion Perfecting Hydrator 60 ml.
