Fight acne, wrinkles and blemishes in three steps

What it is: Proactiv+ Solution 3-Step Skin System, which uses Smart Target technology to deliver acne-fighting formulation directly into infected pores.

What it does: This advanced skincare routine addresses problems like acne, wrinkles and blemishes. It starts with a facial cleanse using a Smoothing Exfoliator that removes excess dirt, oil and other impurities. The second step — Pore Targeting Treatment — stops the acne at the source by delivering blemish-fighting solution directly into the pore. The final process is the Complexion Perfect Hydrator. The moisturizer will heal redness, erase acne marks and brightens skin.

Where to get it: Proactiv+ Solution is available at select

Clean skin is in: For a blemish-free skin, use Proactiv+ Solution 3-Step Skin System.
